Mr. and Mrs. Glenn were married in St. Joseph Church, Braddock, Pa., in 1916. They moved to Los Angeles in 1927, where they operated a grocery business for 18 years. Twelve years ago, the couple moved to Torrance and are making their home with their daughter, Mrs. Donohoe.

## HAVE A NEW FIGURE FOR THE NEW YEAR

Now Is The Time To Reduce For The Spring Fashions Ahead . . .

As Told by Mrs. Latimer

I've lived in Southern California most of my life and really enjoy the beach and informal atmosphere. I used to go to the beach or out somewhere almost every weekend.

My husband kept kidding me about snacking all the time or eating too much. He was good natured about it but I guess he meant some of it.

I realized that I was getting heavy and there seemed to be nothing I could do. Everything I ate seemed to make me heavier in the wrong places. My chin was full, my upper arms so heavy they made me miserable everytime I looked into the mirror.

When I look back now it was a struggle. I seemed to worry all the time about looking better and feeling better. I've tried reducing several times but it seems too long and hard. It's a lot harder than people think to stay on a diet or exercise every day.

When I tried the Kirby System I thought this would be the same fruitless fight. But everyone was so nice to me and I enjoyed the treatment. It really made me feel like I'd actually lost a little weight.

Well, I took a chance. I really must say it surprised me how easy it was and how I got some results right away. This enthused me even more. I decided that I was going to get my figure back this time and kept taking the treatments regularly.

Well, I'm thankful to the Kirby System. I've received so many compliments on my figure. I want to recommend the Kirby System to anyone who wants to beat their weight problems. It really worked for me and other women I've talked to in their salon.

Here is Mrs. Pat Latimer before she started her personal program.

After the completed her program she is a perfect size 9.
